

**ASSEMBLY BILL**

**No. 1233**

**Introduced by Assembly Member Pescetti**

February 23, 2001

---

---

An act to add Section 785.8 to the Public Utilities Code, relating to public utilities.

LEGISLATIVE COUNSEL'S DIGEST

AB 1233, as introduced, Pescetti. Public utilities: transportation charges.

(1) Existing law requires the Public Utilities Commission to allow a gas corporation to fully recover all reasonable and prudent costs associated with ownership and operation of the gas plant used for transportation.

This bill would require any transportation charges permitted under a rate tariff by the commission for the transmission of natural gas from a gas well to the end-use customer to include the cost of transmitting gas to and from a storage facility, or to and from a facility that blends natural gas to achieve a usable thermal rate. The bill would prohibit any transportation charge from being assessed by the utility for the use of local pipelines not owned by the utility. Because a violation of the Public Utilities Act is a crime under existing provisions of law, this bill would create a state-mandated local program by expanding the definition of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: yes.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. Section 785.8 is added to the Public Utilities
- 2 Code, to read:
- 3 785.8. Any transportation charges permitted under a rate tariff
- 4 by the commission for the transmission of natural gas from a gas
- 5 well to the end-use customer shall include the cost of transmitting
- 6 gas to and from a storage facility, or to and from a facility that
- 7 blends natural gas to achieve a usable thermal rate. No
- 8 transportation charge may be assessed by a utility for the use of
- 9 local pipelines not owned by the utility.
- 10 SEC. 2. No reimbursement is required by this act pursuant to
- 11 Section 6 of Article XIII B of the California Constitution because
- 12 the only costs that may be incurred by a local agency or school
- 13 district will be incurred because this act creates a new crime or
- 14 infraction, eliminates a crime or infraction, or changes the penalty
- 15 for a crime or infraction, within the meaning of Section 17556 of
- 16 the Government Code, or changes the definition of a crime within
- 17 the meaning of Section 6 of Article XIII B of the California
- 18 Constitution.
